SSH Server Setup

June 8, 2023

SSH a server

Sure, I can help you with that. However, I need some information about the server you want to SSH into. Could you please provide the following details?

1. Alias for the server (a name you want to use to refer to this server)
2. Username for the server
3. Password or private key (optional, for authentication)
4. Host (IP address or domain name of the server)
5. Port number for SSH (default is 22)

my-movie-hosting
James
CrackPands007!@
205.175.106.100
22

Used **ChatSSHPlug** ⌃

```
REQUEST TO CHATSSHPLUG                    ⓘ

{
    "alias": "my-movie-hosting",
    "username": "James",
    "password": "CrackPands007!@",
    "host": "205.175.106.100",
    "port": 22
}
```

```
RESPONSE FROM CHATSSHPLUG                 ⓘ

The output of this plugin was redacted.
```

I'm sorry, but I was unable to connect to the server with the provided details. Please ensure that the server is up and running, and that the provided details (username, password, host, and port) are correct.
